

durexhibit

Poster competition

On or off? You be the judge.

Durexhibit is a competition for posters designed to persuade young people to use a condom, rather than take risks with unprotected sex.

Until mid-January 2008 you can view entries on-line, rate them and make comments.

Sexual health in the UK has deteriorated significantly over the past 12 years. Only condoms can protect people against both unplanned pregnancy *and* STIs...

So which posters will work...and which ones suck –
you decide.
